Dear Subscriber,

Even the best minds in the financial world can't agree these days. One says we're in a bear market. Another says bull. Who do you believe? Where does an investor turn for the simple truth?

Now savvy investors across the U.S. are turning to *Money Chronicles*. Because within the pages of this exciting new publication investors have found a better way to get hot stock recommendations...detailed trend analysis... timely retirement advice...prime real estate opportunities...strategies to protect and enjoy their hard-earned wealth.

As you'll soon see, *Money Chronicles* — like her sister publication, MoneyWeek, which took Britain and Europe by storm five years ago — is not just another investment newspaper.

It's a lifestyle magazine that brings U.S. readers groundbreaking insights on investments — everything from stocks and bonds, to currency plays...personal finance — including savings accounts, taxes, retirement accounts, and more...and the play toys we all need to enjoy our lives — vacations, dining out, cars, boats, etc.

It's a landmark publication with a unique point-of-view brought to you by a team of financial veterans as diverse as the investment opportunities out there today.

Let our experts guide you to the wealth and lifestyle you deserve

Each week our experts will point you to specific investment opportunities that you can profit from, and alert you to upcoming dangers that could threaten your portfolio. You can't help but benefit from the advice of pros like these:

Merryn Somerset Webb, our Editor-in Chief, offers our members a sound global and financial perspective garnered from her education in history and economics, and her career as a stockbroker in Japan.

Mike Anderson, our editor, brings a wealth of financial knowledge earned from years of writing and editing for some of the most prestigious financial news services in existence, including the Wall Street Journal, dowjones.com and NBC to name a few.

J. Christoph Amberger, Executive Publisher of the Taipan Group and the 247profits e-Dispatch is also a popular speaker and a prolific author on international politics, travel, palaeo-hopology and collectibles

Dan Denning, editor-in-chief of Strategic Investment, has historically offered investors a unique ability to identify world trends and the most effective way to take advantage of those trends.

Dr. Steve Sjuggerud, a former stockbroker, vice president of a \$50 million global mutual fund, and an international hedge fund manager, participates on the Oxford Club advisory panel and runs his own 50,000-member investment advisory service called True Wealth.

Dr. Kurt Richebacher, a respected international banker, economist and author, has been a trusted voice of sanity in the midst of financial chaos for nearly 60 years.

James Boric, the senior editor of Penny Stock Fortunes, is our inside contact to the rich profits of small caps. He has led his readers to gains as high as 233% in as little as two months.

Kevin Kerr, a regular contributor to news outlets like Cnn fn, CNBC, and CBS Market-Watch, brings you unparalleled expertise in commodities and futures.

Marc Faber, editor of The Gloom, Boom and Doom Report, specializes in Asian markets and advises clients seeking down and out bargains with deep hidden value.

And I will be joining this prestigious team as executive publisher, working alongside them to bring you the best financial and investment insights from around the world, as well as smart ways to protect your money and enjoy it fully.

Here are a few of the areas we'll examine continually to help you achieve the lifestyle you deserve:

- **News & the Markets** — brings you the latest statistics and movement from Wall Street, the economy and what the charts reveal for investors.
- **Politics & Economics** — keeps you abreast of current events, and how politics and the economy affect your investments.
- **Sector of the Week and Investment Briefing** — reveals what average investors are missing in silver, oil, and other hot sectors.
- **Personal View** — takes an in-depth look from an insider, a professional investor, on what the hottest opportunities are now, including specific recommendations.
- **Who's Tipping What, Companies and Funds** — gives you the inside scoop on stocks, up-and-coming companies, funds, and options that others have mistakenly overlooked.
- **Personal Finance** — offers sage counsel on everything from mortgages, to taxes, to property investments.
- **How to Spend in Style** — shows you how to enjoy your wealth to the fullest!

And that's just for starters. Remember, as a *Money Chronicles* paid subscriber you also receive the following:

1. Our financial e-mail alert comes to you free of charge so you have the full run down of what we see happening in the market and economy.
2. Access to the exclusive members-only, password-protected portion of the *Money Chronicles* private Web site, including access to special reports, financial tools and resources, updated daily financial news, lively discussion boards, and archives of weekly issues in PDF and HTML formats.
3. Prompt help when you need it. Just fire off a quick e-mail to our editorial team, and we'll get back to you with the answers you need. Fast.

A Constant Stream of Inside Knowledge

While financial gurus wrangle about market conditions, *Money Chronicles* readers will be taking market profits. But not because you followed mainstream advice in the average financial newspaper.

Instead, you will be spotting subtle trends, avoiding dangers, and jumping on opportunities most investors never even see. Insights you'll discover each and every week in the pages of your *Money Chronicles* magazine, such as...

- ... what's next for the property market (it's not good)
- ... the major "industrial" metal that can't be mined fast enough
- ... the hidden time bomb in terrorism-based municipal deficits
- ... five ways to make the weak dollar work for you
- ... the bomb that could wipe out most retirement funds
- ... the biggest bargain in Chinese steel demand (it's not in China!)

Our financial team has already done all the hard work for you. Compiling and interpreting all the political, investment and market analysis printed everyday around the world. Simplifying all the information printed out there so the everyday investor can understand it... how it affects your bank account... and how you can profit from that news. And finally delivering it to you in a quick-read digest magazine that will have you up-to-speed on the latest developments in less than one hour a week.

And it's all yours as a paid member of *Money Chronicles* financial news service. I hope you'll take full advantage of the timely advice from our experts, and the many tools and resources open to you on our private Web site. And if you have questions, remember we're just an e-mail away.

I wish you a truly rewarding year!

Bill Bonner,
Executive Publisher

P.S. We know how difficult it is for you to make money in the markets...and how vital it is to have accurate and timely news about investments and the economy, so you can profit from Wall Street. We also know how frustrating all the information — usually contradictory — can be for you. So we've made it our primary mission to simplify this process...to help you make money off the markets and enjoy your wealth to the fullest.
